WITH EXPERIENCE, COMES VISION

FOCUSING ON THE CAMPUS

Southern California College of Optometry
An Environment for Learning

The campus of the Southern California College of Optometry is incredibly beautiful and wonderfully functional.

This statement could describe the Fullerton campus at anytime during its 33-year history. However, today, after $20.8 million and nearly 9 years of on-going renovations the campus is more beautiful and more functional than ever.

“The SCCO campus provides a beautiful place to learn, study and work,” said SCCO President Les Walls, O.D., M.D., D.O.S. “All of our constituencies benefit from our extraordinary facilities. For our patients, this campus and the recently renovated Eye Care Center (ECC), combine the best in vision care expertise and current technology. Our alumni benefit via our continuing education courses that utilize the talents of our excellent faculty and the technological offerings that are at their disposal. The College is also a proud and active member of the Fullerton business community and, as such, its administrators, faculty and students play host to a variety of service, educational and professional groups. And, for all of our generous donors, alumni and non-alumni, they see us as a winner in whom they want to invest! All of these factors enhance the learning experience for our students, and the workday experience for our administrators, faculty and support staff.

“I’m happy to note that the millions of dollars needed to renovate and upgrade the campus were generated by donations, investments and the sale of property,” said President Walls. “This is all thanks to the prudent fiscal stewardship of the College’s personnel and its Board of Trustees.”

The first change to the campus, since it opened in February 1973, was the construction of a third floor to the Administration Building in the early 1980s. This project added critical office and meeting space for the Office of the President.
It was an easy decision to provide financial support to the College for its Eye Care Center. After all, it was the College that provided for me the education, which was so very important to my parents and to my family, to practice a wonderful career in health care that has brought me much joy and satisfaction. I’m honored to support the College’s students and patients in this way.”

Donald E. Jarnagin, O.D., ’70
Private Practitioner, Glendale, Arizona, 1970 to present
Trustee, Southern California College of Optometry, 1998 to present
President, American Optometric Association, 1995–96
Fully Endowed, Dr. Donald E. Jarnagin Endowed Scholarship, 1999
Fully Endowed, Woody and Dorothea Jarnagin Endowed Scholarship, 2002
The next major change was the addition of the Richard L. Hopping Academic Center, its adjoining parking structure and, the Patricia Hopping Commons. The excavation for this major construction began July 7, 1997. The $11.5 million building project was completed for occupancy on March 15, 1998. Furniture, fixtures, equipment and computers added $230,000 to the grand total.

The Academic Center was designed to provide a technologically sophisticated learning environment for students, faculty, alumni and friends. The Academic Center houses the world renowned M.B. Ketchum Memorial Library; a 300-seat lecture hall that converts to three 100-seat classrooms (the largest indoor gathering spot on the campus); a second student computer lab; seminar and study rooms; a fitness center; an adjoining multi-level parking structure; a shipping and receiving center; shops and offices for Campus Operations; and campus storage. The building beautifully complements the four original campus structures.

The M.B. Ketchum Memorial Library nearly doubled in size with its move to the second floor of the Richard L. Hopping Academic Center. The 11,616 square-foot library offers computer access to databases and information resources, individual and group study areas, and space for a growing collection.

The Patricia Hopping Commons, named in recognition and celebration of Pat Hopping’s tireless support of SCCO, its students and alumni, the profession of optometry, and the community, provides a spot for quiet reflection and study, or a fun-filled campus event. Surrounded by a seating wall on three sides and boasting a built-in barbecue, partially funded by several SCCO class gifts, the redefined green space provides a beautiful place for students to gather for a quick game of catch or to socialize.

To maintain SCCO’s leadership position in optometric education and patient care a $7.8 million project to renovate and expand the then 31-year-old Eye Care Center was launched in July 2004. The ambitious project answered the College’s on-going desire to offer the best available clinical

### Naming Opportunities

Many naming opportunities remain available for campus facilities, as well as research, scholarships and other programs. For information contact SCCO’s Vice President of Advancement William E. Heaton Jr., at 714.449.7464 or wheaton@scco.edu.
“At SCCO, major campus construction comes with a commitment to design the infrastructure to support the technology used in teaching and patient care. This is evident throughout the campus; but, most notably, in the Academic Center and the Eye Care Center. Our state-of-art diagnostic and therapeutic instrumentation produces digital images that can be transmitted to classrooms and seminar rooms across campus, as well as offer storage capability in electronic medical record format. These features have significant value in attracting patients, students and faculty to the College. The fact that representatives from several external educational centers, locally and nationally, have visited our facilities to emulate our campus design gives testimony to the unique qualities of the SCCO Campus.”

Morris S. Berman, O.D., M.S.
Vice President and Dean of Academic Affairs
experience to students, patients, and faculty. In addition, $1.3 million was expended for new technology, computers, furniture and fixtures for the campus-based facility.

The 12-month renovation of the Eye Care Center resulted in a beautiful and functional facility that boasts 53 patient examination rooms designed for comprehensive exams, vision therapy, contact lenses, low vision and other specialty areas. All of the rooms have computer networking capability and internet access.

Within each clinical service, there are consultation rooms that provide ample space for group discussions. Each of the consultation rooms has the capability of providing electronic projection, as well as interactive linkage with various examination rooms, other consultation rooms and classrooms in the Richard L. Hopping Academic Center and ECC’s Blake Conference Center.

On the ground floor of ECC is the Blake Conference Center that consists of two rooms for meetings, and lecture/seminar presentations. The larger room has a capacity of 40–45 people. Both rooms have computer networking capabilities and video/audio conferencing with the selected exam/consultation rooms of the Eye Care Center.

ECC’s upper level houses the Carling Huntington Childs Family Laser Center that has been designed to provide ophthalmologic care including refractive surgery and other minor laser surgery procedures. An affiliation with TLC Laser Eye Centers has been developed and this group is currently utilizing the facility for refractive surgery.

Other renovated facilities on campus include the pre-clinic laboratories, the areas housing the accounting and institutional advancement departments, and the Student and Faculty Center that includes the Student Lounge, Campus Store, Recreation Center, and clinic faculty offices.

“The SCCO Campus is still as beautiful as it was when I started working here almost 25 years ago, and the addition of the Academic Center, the Parking Structure and the new Eye Care Center have only enhanced the surroundings. As a staff person, I appreciate the continuing efforts to keep SCCO a pleasant environment in which to work.”

Word Processing Department
SCCO Campus – Named Facilities

The College Family is most grateful to the generous benefactors who have provided significant financial support of the following facilities.

Buildings
Richard L. Hopping Academic Center
M.B. Ketchum Memorial Library
Lecture Halls
   Kanai Family Lecture Hall
   Captain Harry C. Moore Lecture Hall
Study Rooms
   Dr. Takao “Tak” Shishino Study Room
   Dr. Luis Carlos and Gloria Villa Study Room

Roger C. Wilson Administration Building
   Elevator
   Dr. Arnold & Beverly Miller

Eye Care Center
   Blake Conference Center
   Carling Huntington Childs Family Laser Center
   Jarnagin Primary Eye Care Center
   Stein Family Cornea and Contact Lens Center
   Studt Center for Vision Therapy
   VSP Reception Center
   Mary Ann Keverline Walls Low Vision Rehabilitation Center
Patient Exam Rooms
   Reichert Ophthalmic Instruments (Two Rooms)
   Dr. Luis Carlos and Gloria Villa

Basic & Clinical Sciences Building
   Classrooms & Labs
   First Floor
   Research Laboratories
   Specto Optical Co.
   Visual Science Laboratory
   Equipment
   Dr. Lawrence Fromm
   Visual Science Laboratories
   Bartley Optical Sales, Inc.
   Second Floor
   Classroom
   Long Beach Optometric Soc.
   Equipment
   Omega Delta Fraternity
   Furnishings
   Dr. J.M. Soss
   Physiology and Neurology Laboratory
   Dr. & Mrs. L. Earl James
   Pre-Clinic Laboratory
   Dr. & Mrs. Warren Harvard Low
   Contact Lens Laboratory
   In Memory of Dr. Arthur Sugino & Family
   Mechanical Optics Laboratory
   Heard Optical Co.

A view from the Patricia Hopping Commons toward the center of the seven-acre SCCO Campus.

This patient's optic nerve is being scanned at the Eye Care Center with one of the most sensitive, non-invasive diagnostic techniques used to examine the posterior segment.
"The Eye Care Center reflects a bright and sophisticated environment with the technological ability to provide care to our patients while offering the most contemporary education for our interns. The layout and design of the Eye Care Center was developed with input from those involved in clinical education, making the flow of patient care and intern instruction enjoyable and efficient."

Alumni Notes

1952
Scco Trustee Warren Harvard Low, O.D., Lomita, CA, served as an Honorary Chairman of the U.S. House of Representatives House Majority Trust and the 2006 President's Dinner from the State of California. The event was held in June.

1963
Scco Trustee Joe W. Dobbs, O.D., Santa Barbara, CA, has been elected president of the Santa Barbara Community College District Board of Trustees. He will serve a one-year term. Dr. Dobbs has been a member of the local Community College District's Board of Trustees since 1971 and is serving as president for the fifth time. He's also a past president of the statewide Board of Directors of the California Community College Trustees.

1972
Akio Kanai, O.D., Sapporo, Japan, has been named the recipient of the United Nations High Commission for Refugees' (UNHCR) Nansen Refugee Award for 2006. Dr. Kanai, chairman and CEO of Fuji Optical Co. Ltd., has, for more than two decades, improved the quality of life for more than 100,000 uprooted people around the world by testing their eyes and providing them with spectacles. The six-member Nansen Refugee Award Committee selected Dr. Kanai, "for his practical commitment to humanitarian work and dedication to easing the plight of refugees by improving their eyesight." The Committee found that he had "rendered exceptional service to the refugee cause," and had made a huge and genuine contribution to uprooted people in human, as well as financial terms. Dr. Kanai began working with UNHCR in 1984, and has since conducted more than 24 missions to help refugees in Nepal, Thailand, Azerbaijan, and Armenia. He has donated more than 108,200 pairs of glasses, provided optometric equipment, made cash grants and trained local medical staff. Fuji Optical Co. Ltd, is UNHCR's longest-serving corporate partner.

1974
Richard S. Eisenberg, O.D., Woodland Hills, CA, helped the Luminaires, a volunteer support group of the USC Doheny Eye Institute, host its recent fundraiser at the Playboy Mansion in Beverly Hills. The Luminaires have helped to raise more than $4 million for USC research programs aimed at finding cures for devastating eye diseases.

1978
Ronald L. Hopping, O.D., M.P.H., was reelected to the Board of Trustees of the American Optometric Association at the national organization's June meeting, Dr. Hopping and his wife, Desiree Hopping, O.D., practice in Houston, TX.

1986
Mitchell T. Munson, O.D., was elected to the Board of Trustees of the American Optometric Association at the national organization's June meeting, Dr. Munson and his wife and classmate, Susan Brunisett-Munson, O.D., live and practice in Highlands Ranch, CO.

1999
Yvonne D. Lee, O.D., has opened a new practice at 2325 E. Fry Blvd., Sierra Vista, AZ. 85635, 520.417.0100.

2005
Ani Halabi, O.D., was profiled in a feature article for a publication of Glendale College. After graduating from Glendale College, she earned her baccalaureate degree from Cal State Northridge, followed by the O.D. degree from Scco. Dr. Halabi practices and resides in Glendale, CA.

Summer 2006 13
Take Your Seat

The College's Take Your Seat (College TYS) Campaign is underway! Your $500 gift to the College TYS Campaign will permanently name a seat in one of the three on-campus lecture halls and your gift will assist in the campaign to continue to provide the finest teaching and vision care facilities in the world.

You may select a seat up front, way in the back, next to friends, or with your class. However, there are only 300 places for you to leave your mark! Each seat will bear a name tab with your full name (one name per tab) plus an optional second line.

The most dramatic venues on campus are the lecture halls, which are used by students, visiting lecturers and for continuing education programs. Your gift, along with those of others, will be part of this stunning space — utilized by thousands each year. To be a part of the College TYS Campaign, contact SCCO's Vice President of Advancement Bill Heaton, 714.449.7464 or visit the website: scco.edu/givingatthecollege/collegetys. Act now — seat naming will increase to $1,000 on January 1, 2007.

PROMOTE OPTOMETRY

Each One, Reach One

The Association of Schools and Colleges of Optometry's (ASCO's) “Each One, Reach One” campaign is a practitioner-based career promotion effort that encourages optometrists to talk to their patients and other gifted young people about optometry as a future career.

The goal of the program is to increase optometry's national applicant pool to three applicants for each first-year position and to develop an applicant pool that reflects the diversity of the U.S. population. According to a 10-year study on incoming students at all schools and colleges of optometry, the majority of students indicated that their decision to choose optometry as a career was due to the encouragement of individual optometrists.

The recruitment program is not about increasing the number of graduates from the nation's optometry schools. It's about making sure that those who are selected continue to reflect the profession's ability to attract bright and caring young people. To become a member of the “Each One, Reach One” Career Promotion Corps go to the ASCO website at www.opted.org and click on Career Promotion Corps.

2001: Alessia Antonette Brown celebrated her first birthday on August 3, 2006, with parents, Michelle P. Ahumada, O.D., and Jason Brown, and big brother, Burke, 2. The family resides in San Juan Capistrano, CA, and Dr. Ahumada practices in nearby Dana Point.

2003: Ashlee Calder was born to proud parents, Gavin and Amy Jo Calder, O.D., on May 19. She weighed 6 pounds and 10 ounces. The family resides in El Segundo, CA.
AROUND THE CAMPUS

Distinguished Service. The College’s Distinguished Service Award was bestowed upon, Capt. Richard A. Hatch, O.D., ’74, during the College’s 102nd Commencement Exercise. Dr. Hatch has committed a major part of his professional career to serving Native American patients as an Indian Health Service Optometrist through the US Public Health Service Commissioned Corps. He has been involved in the clinical education of about 25 percent of all SCCO graduates for the past 25 years through the College’s Outreach Clinical Program. Presenting the award to Dr. Hatch were the Chairman, Board of Trustees Mark A. Galvan, O.D., and President Les Walls, O.D., M.D., D.O.S.

Eighty-nine men and women also received their Doctor of Optometry degree during the May 26 ceremony. Class Valedictorian was Jonathan M. Christiansen, O.D., from Blanding, UT. The Commencement Address was presented by Associate Dean for Research and Graduate Studies, The Ohio State University, Karla S. Zadnik, O.D., Ph.D. Members of the Class of 1956 participated in the day’s activities and were recognized for their 50 years of service to the profession and the College, and 23 optometrists were also acknowledged for the completion of one-year residency programs.
