

Optometric Clinical Seminars

Optometry Service
Department of Veterans Affairs

July 1, 2022 through June 30, 2023

Pauline F. Ilsen, OD, Coordinator

Conducted as a series of interactive lectures by members of the residency faculty, residents, and invited guest speakers, this program is designed to present the essential core of optometric knowledge in a manner conducive to learning and retention. To achieve this objective, each of the sections of the course curriculum contains related aspects of basic and clinical science.

As an educational program, the Optometric Clinical Seminars serves primarily as an adjunct to optometric residency training.

All SCCO-affiliated residents are invited to attend the Seminars. Written approval must be received from the instructor of the course and Chief of the respective facility's optometry program.

The Program runs 3 hours (1:00-3:40 PM) with one mid-afternoon break unless otherwise specified.

Gray shading indicates meetings that are not open to outside practitioners for continuing education.
