Mandatory Professional Licensure Disclosure
July 1, 2020

In compliance with Federal Regulations, 34 CFR §668.43 (2019 Rule), and State Authorization Reciprocity Agreements (SARA) Manual version 19.2, the School of Physician Assistant Studies at Marshall B. Ketchum University provides the following disclosure related to the educational requirements for professional licensure as a physician assistant.

This disclosure is strictly limited to the School’s determination of whether its Master of Medical Science (MMS) educational program, if successfully completed, would be sufficient to meet the educational licensure requirements in a state for the practice of medicine as a physician assistant. The School cannot provide verification of an individual’s ability to meet licensure or certification requirements unrelated to its educational programming. Such individual determinations are made by state licensing boards and are fact specific determinations.

This disclosure does not provide any guarantee that any particular state licensure or certification entity will approve or deny your application. Furthermore, this disclosure does not account for changes in state law or regulation that may affect your application for licensure and occur after the date of this disclosure. Enrolled students and prospective students are strongly encouraged to contact their State’s licensure entity using the links provided to review all licensure requirements imposed by their state(s) of choice.

The School has designed an educational program curriculum for its Master of Medical Science degree that if successfully completed is sufficient to meet the licensure and certification requirements for a Physician Assistant license in the following states:

Alabama  
Alaska  
Arizona  
Arkansas  
California  
Colorado  
Connecticut  
Delaware  
Florida  
Georgia  
Hawaii  
Idaho  
Illinois  
Indiana  
Iowa  
Kansas

[1] This determination is based on the educational and curricular requirements of each state for licensure (excluding any special or temporary licensure that may be granted) and does not imply that other requirements for licensure do not exist or have been determined to have been met by this program or that any necessary approvals for clinical placements have been secured at the time of enrollment.
